

MANAGEMENT SYSTEM POLICY

Visor d.o.o. is committed to providing our customers high quality machine vision systems and related services, which meet or exceed their expectations, while exercising a high level of environmental awareness.

This will be achieved through:

- Consideration of full context of our organization and aligning the Quality and Environmental Management System with our strategic directions
- Establishing, applying, maintaining and continuous improvement of our Quality and Environmental Management System
- Management of organization, along with clearly defined and measurable quality and environmental objectives and defined responsibilities for their fulfilment
- Our commitment to satisfy applicable requirements
- Our commitment to fulfil all compliance obligations
- Continuous evaluation of customer feedback and satisfaction
- Staying current with advances in relevant technologies and employee education
- Careful selection of suppliers, partners and components
- Making continuous improvement a part of every day and every job
- Communication of this Policy and our environmental aspects to all relevant and interested parties.

Zagreb, 11.07.2019.
